

# WORKING GROUP GUIDANCE

## REPORT BACK:

Begin to frame the “*why*” portion of the problem solving dynamic by identifying at least 3 key elements of the positive experience we need to create in order to transform the area into a neighborhood of choice.

### Why People of Choice will be attracted to the Safety System

- Want to be able to communicate/demonstrate that the neighborhood is safe; people are comfortable living in the neighborhood
- Want to demonstrate safety through an attractive environment (better lighting, landscaping, traffic calming, snow/ice removal)
- Neighborhood watch programs demonstrate that the neighborhood works together; knowing the police; police have “our back”
- More visible police presence to keep problems out.
